## Municipal subsidy for the purchase of renewable energy sources, energy-efficient household appliances, and rainwater recovery systems

*Effective from: January 1st, 2025*

### Conditions for receiving municipal subsidies

- **State subsidy authorization:** To qualify for a municipal subsidy, a state subsidy must first be awarded by the Ministry of Environment (official letter from the Ministry). This requirement does not apply to the purchase of household appliances.
- **Application form:** The completed application form from the municipal administration is required. This form is available on the municipal website and at the municipal administration.
- **On-site inspection:** By accepting the municipal subsidy, the applicant authorizes the municipal technical service to inspect the relevant work on site.
- **Expiration of subsidies:** Municipal subsidies must be claimed within one year after December 31st of the calendar year in which the state subsidies were granted.
- **Maximum funding limit:** The total amount of state and municipal subsidies may not exceed 100% of the total project costs.
- **Additional documentation:** The municipal administration reserves the right to request further supporting documents related to the subsidized work and services.

### Sustainable energy-efficient refurbishments

The municipality's financial support for sustainable energy refurbishments is determined as follows:

	Description of the refurbished element	Percentage of state support (incl. bonus) (%)	Maximum amount of municipal aid for a single-family house (EUR)	Maximum amount of municipal support for a multi-family house (EUR)
1	Exterior wall (insulated on the outside)	25%	1.000 €	4.000 €
2	Exterior wall (insulated on the inside or a combination of inside and outside insulation)	25%	1.000 €	4.000 €
3	Roof insulation or upper floor slab insulation against an unheated area	25%	1.000 €	4.000 €

## Technical installations that use renewable energy sources

For technical installations that use renewable energy sources, the municipality's financial support is determined as follows:

	Designation of the technical installation	Percentage of state subsidy (incl. bonus) (%)	Maximum amount of municipal aid for a single-family house (EUR)	Maximum amount of municipal support for an apartment building (EUR)
1	Thermal solar systems	25%	625 €	1.875 €
2	Heat pumps (replacement of an old heating system with a heat pump, regardless of whether it is a single-family house or an apartment building.	Condition for state aid not applicable.	1.000 €	1.000 €

## Installation of a rainwater recovery system

For the installation of a rainwater recovery system, a grant of up to 25% of the state subsidy (maximum 250€) can be applied for.

The requirements of the Grand Ducal Regulation of May 14th, 2003 must be fulfilled.

## Grants for the purchase of household appliances

### Eligible household appliances:

- Dishwasher
- Washing machine
- Dryer
- Fridge
- Freezer
- Combination fridge-freezer

All appliances must comply with **energy class A**.

### Conditions for receiving the subsidy

- **Completed form:** The completed application form from the municipal administration.
- **Invoice copy:** A copy of the paid invoice, including the purchase date, brand and model of the appliance.
- **Eurolabel:** The sticker with the **Eurolabel** indicating the energy class of the appliance.
- **Proper disposal certificate** (for refrigerators, freezers, and combination appliances): Proof of proper disposal of the old appliance.

The subsidy amount is **100€** per eligible appliance.

The subsidy is granted **once every five years** for the same type of appliance per household. Applications must be submitted **no later than six months** after the purchase date.
